Title: Tobacco Products Policy

Approved: November 6, 1999

Last Revised:

The Association is concerned with the health and comfort of its members and the public. Accordingly, the use of tobacco products at indoor meetings and gatherings that are under the control of the Association is not sanctioned. Reasonable efforts should be made to identify and appropriate area separate from the meeting area that is available for smoke breaks.

Members, when representing the Association in events where use of tobacco is permitted, should refrain from its use, other than in designated areas separate from the area of Association activity, for example, an outdoor membership and information table at a fishing tournament would be considered a non tobacco use area for those staffing the table.

During participation in outdoor activities such as chapter outings, rules of common sense and courtesy should prevail.

Approved by Executive Committee for submittal to Board of Directors on November 6, 1999 for final approval.

Approved by Board of Directors on November 6, 1999.
